

Learning by
teaching
for your community

Cassidy Williams

@cassidoo

The most important thing in
my career has been my
community.

No matter the field, if one
doesn't have a **community**
around them, they will **not**
stay in said field.

Finding your
community

Finding your community

- Conferences and events
- Social media
- Special interest groups

Maintaining a
community

The 3 Pillars

The 3 Pillars

- Advocacy
- Accelerating
- Advising

Advocacy

Publicly recommending and
supporting each other!

Accelerate

Bettering each other!

Advise

Mentorship!

The best way to combine these
things together is to teach
your community.

Teaching works!

Teaching can be intimidating,
but it doesn't have to be.

Repetition is recognition!

Actively teach
your community.

Thank you!

Q&A Time!
